

Nigeria's Journey Towards Post-Quantum Readiness

*"Moving Nigeria from Post-Quantum Awareness
to Post-Quantum Readiness."*

PRESENTED TO

- Nigeria Data Protection Commission (NDPC)

PRESENTED BY

- Enet Technologies Team

STRATEGIC COLLABORATION

- QuantumGenie
- Manchester Metropolitan University

WHY ACT NOW?

Growing Digital Economy

Rapid digitization increases data creation and exposure.

Long-Term Data Protection

Sensitive data must remain secure for decades.

Harvest Now, Decrypt Later

Data stolen today can be decrypted tomorrow.

Emerging Quantum Risk

Quantum computing will break today's public-key cryptography.

National Cyber Resilience

PQC readiness strengthens Nigeria's cybersecurity and digital sovereignty.

KEY MESSAGE

**Post-Quantum Readiness
is a Governance
Challenge.**

QUANTUMGENIE

**Manchester
Metropolitan
University**

THE NIGERIAN REALITY

CURRENT OBSERVATIONS

AWARENESS IS GROWING

More conversations, events, and interest in post-quantum security.

ACTION IS LIMITED

Few organizations have taken concrete steps toward PQC readiness.

NO STRUCTURED ROADMAPS

Most organizations lack clear plans or migration roadmaps.

POOR CRYPTOGRAPHIC VISIBILITY

Limited visibility into cryptographic assets and dependencies.

READINESS GAP REMAINS

The majority of organizations remain far from being PQC ready.

OBSERVATION

The gap is no longer
awareness—
it's **execution**.

KEY ENTERPRISE CHALLENGES

EXECUTIVE-ENGINEERING GAP

Limited alignment between business leaders and technical teams.

UNKNOWN CRYPTOGRAPHIC ASSETS

Most organizations lack visibility into where and how cryptography is used.

WEAK GOVERNANCE

Cryptography is not governed with clear policies, roles, and accountability.

NO CRYPTOGRAPHIC INVENTORY

Absence of a complete inventory of algorithms, keys, certificates, and dependencies.

SKILLS & CAPACITY GAP

Shortage of PQC-skilled professionals and specialized expertise.

COMPETING BUSINESS PRIORITIES

PQC readiness often competes with short-term business goals and budgets.

REALITY

**You cannot govern
what you cannot see.**

LESSONS FROM INDUSTRY

DISCOVERY IS THE BIGGEST CHALLENGE

Organizations underestimate the complexity of finding cryptographic assets.

DATA QUALITY LIMITS VISIBILITY

Incomplete, inconsistent, and scattered data lead to poor decision-making.

FRAGMENTED GOVERNANCE

Cryptography is managed in silos with no enterprise-wide ownership.

MIGRATION LACKS STRUCTURE

Ad-hoc approaches increase risk, cost, and implementation time.

AWARENESS ≠ READINESS

Knowing about PQC is not the same as being ready for it.

KEY INSIGHT

**You cannot migrate
what you cannot
discover.**

Our Proposed Framework

Governance-Driven Cryptographic Lifecycle Management

Stronger Data Protection

Future-Ready Infrastructure

Regulatory Confidence

Trusted Digital Economy

Key Capabilities

Executive Risk Dashboard

Post-Quantum
Readiness Assessment

Enterprise Inventory
& Discovery

Git Repository Explorer

Research Notes
& Publications

Governance-Driven
Recommendations

Analytics & Reporting

Decision Support for
Migration Planning

Enable organizations to discover, assess, prioritize and govern enterprise post-quantum migration through a single platform.

REGULATORY & COMPLIANCE ALIGNMENT

Aligning PQC readiness with global standards, regulations, and governance frameworks.

NIGERIA DATA PROTECTION ACT (NDPA)

NIGERIA DATA PROTECTION COMMISSION (NDPC)

ISO/IEC 27001

NIST CYBERSECURITY FRAMEWORK

NIST POST-QUANTUM CRYPTOGRAPHY STANDARDS

CRYPTOGRAPHIC AGILITY BEST PRACTICES

ENTERPRISE GOVERNANCE & AUDIT READINESS

KEY MESSAGE

EQMP helps organizations
align cryptographic
governance with
regulatory, security, and
emerging
post-quantum requirements.

STRATEGIC COLLABORATION

Working together with NDPC to build a secure, resilient, and quantum-ready Nigeria.

KNOWLEDGE SHARING

Exchange insights and best practices.

CAPACITY BUILDING

Develop skills and competencies.

JOINT RESEARCH & INNOVATION

Advance PQC research and solutions.

POLICY & FRAMEWORK DEVELOPMENT

Strengthen governance and standards.

PILOT & SCALE IMPLEMENTATION

Deploy, evaluate, and scale real-world impact.

KEY MESSAGE

**A strategic partnership
to accelerate Nigeria's
post-quantum readiness
through collaboration,
innovation, and impact.**

RESEARCH & STRATEGIC PARTNERSHIPS

Advancing PQC innovation, building knowledge, and driving real-world impact together.

OUR RESEARCH FOCUS AREAS

POST-QUANTUM
CRYPTOGRAPHY

CRYPTOGRAPHIC
AGILITY

GOVERNANCE &
RISK MANAGEMENT

QUANTUM-RESILIENT
INFRASTRUCTURE

AI-ASSISTED
CRYPTO DISCOVERY

SECURE DIGITAL
INFRASTRUCTURE

OUR STRATEGIC PARTNERS

- PQC research & tool development
- Migration methodologies & frameworks
- Enterprise advisory & implementation

**Manchester
Metropolitan
University**

- Academic collaboration & research
- PhD research & knowledge exchange
- Governance frameworks & standards
- Talent development & capacity building

KEY MESSAGE

Bridging international
research, industry expertise,
and local implementation to
**accelerate Nigeria's
post-quantum readiness.**

PARTNERSHIP BENEFITS

- ✓ Access to cutting-edge PQC research
- ✓ Joint innovation & solution development
- ✓ Capacity building & talent exchange
- ✓ Influence policy, standards & best practices
- ✓ Stronger ecosystem impact & visibility

STRATEGIC COLLABORATION

Working together with NDPC to build a secure, resilient, and quantum-ready Nigeria.

KNOWLEDGE SHARING

Exchange insights and best practices.

CAPACITY BUILDING

Develop skills and competencies.

JOINT RESEARCH & INNOVATION

Advance PQC research and solutions.

POLICY & FRAMEWORK DEVELOPMENT

Strengthen governance and standards.

PILOT & SCALE IMPLEMENTATION

Deploy, evaluate, and scale real-world impact.

KEY MESSAGE

**A strategic partnership
to accelerate Nigeria's
post-quantum readiness
through collaboration,
innovation, and impact.**

EXPECTED IMPACT

Building a secure, resilient, and future-ready digital ecosystem for Nigeria.

STRONGER NATIONAL SECURITY

Protect critical infrastructure and sensitive data from quantum-enabled threats.

ECONOMIC GROWTH & INNOVATION

Enable secure digital transformation and unlock new opportunities in the quantum era.

REGULATORY LEADERSHIP

Position Nigeria as a leader in post-quantum governance and data protection.

CAPACITY DEVELOPMENT

Build local expertise and a skilled workforce for emerging technologies.

GLOBAL COMPETITIVENESS

Enhance trust, attract investment, and strengthen Nigeria's digital economy.

KEY MESSAGE

EQMP empowers Nigeria
to build a secure,
resilient, and competitive
digital future in the
post-quantum era.

Let's Build Nigeria's Post-Quantum Future Together

Thank You

We appreciate the opportunity to present to the Nigeria Data Protection Commission (NDPC).
We look forward to collaborating with you to strengthen Nigeria's digital future through governance-driven, quantum-ready resilience.

Let's stay connected.
